- Financial and Operational Metrics
- Workflow Review and Tuning
- Customer Tracking Systems
- Custom Data Analysis
- Transition and Succession Planning

About Ethan:

Ethan Powsner works with the Agency Consulting Services (ACS) group of FNF as a consultant in the financial and operational realms. Primarily focused in the Midwest/Midsouth division, Ethan also has clients in other FNF agency operations.

Ethan is a licensed attorney and practiced a dozen years in the real estate law area before joining the FNF family in 1999. The first half of Ethan's FNF career was in profit center management roles in both the direct operations and agency sides of the business. Since 2014, Ethan has focused solely providing consulting services to FNF agents.

Ethan's expertise is in working with agents wanting to be more strategic and intentional with their agency's finances and operations. Through the creation of customized financial and operational metrics tracking systems, as well as customer tracking systems, the agencies Ethan works with invariably increase their profit margins.

Ethan has been published in both professional business related publications and in hobbyist magazines. He enjoys pickleball, hiking, and spending time with his family.
